| Screenshot       |  The screenshot shows the 'Products' section of the Sauce Labs website. It displays four items in a 2x2 grid. Each item has a pug image, a title, a description, a price, and an action button. The items are: 'Sauce Labs Backpack' (\$29.99, Remove button), 'Sauce Labs Bike Light' (\$9.99, Remove button), 'Sauce Labs Bolt T-Shirt' (\$15.99, Add to cart button), and 'Sauce Labs Fleece Jacket' (\$49.99, Add to cart button). The 'Remove' buttons are highlighted in red. |

| Browser          | Chrome 142.0.7444.135                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Steps to reproduce

1. Navigate to the Login page.
2. Log in as the problem\_user (password: secret\_sauce)
3. On the Inventory page, click “Add to cart” for any item (e.g, “Sauce Labs Backpack)
4. The “Remove” show up but can not remove the item

## Expected result

The cart icon's badge disappears. The button for "Sauce Labs Backpack" changes back to "Add to cart".

**Actual result**

The cart icon's badge does not disappear. The button for "Sauce Labs Backpack" still remain the same

**Notes**
